ABOUT US

Like Jalalabad State University itself - long a leader in global education, with a multitude of international students and programs faculty of Medicine reaches beyond Kyrgyz Republic borders to promote global diversity in our programs for medical graduates, students and aspiring health care professionals.

We welcome international applicants that come to us through established sponsor organizations seeking residency placements, fellowships or professional advancement via pathways that often start with research scholarships. We also offer them public health and professional advanced degrees, as well as basic sciences doctoral degree programs, research and training.

We are constantly expanding both the programs available to international applicants and our global contacts.

Message from Rector

Jalal-Abad State University

During its development over the past years Jalal-Abad State University has consistently held to its motto of "dedication to practical studies, enhancement of knowledge, ability and quality", and its declared mission to promote cultural exchange, commitment to personnel training, facilitate economic development and further social progress. With the support from the community as well as the joint efforts of teaching and administrative staff, researchers, alumni and students, the University has become the largest multi-disciplinary university locally and been placed in the top ten.

The University holds in high regard the promotion of virtuous ideals and the concept of whole person education, while being committed to the implementation of professional education and the development of academic research. It also focuses on cultivating high quality talent with both ability and integrity, to accord with the development of globalization in science, technology and economy.

Our educators hold fast to the belief that the University is not just simply a place to teach professional knowledge and develop professional skills; rather it is more akin to a place which promotes thinking and wisdom, purifies souls, and passes on traditions of outstanding cultural and humanistic spirit.

Today, the global higher education environment is developing rapidly; with the continuous prosperous progress of Kyrgyzstan society and economy, the present offers an excellent opportunity to take the initiative in promoting higher education development.

To meet upcoming challenges and opportunities, we will continue to implement strategies of pursuing excellence in teaching and research with equal importance, establishing and furthering our bases in local society whilst maintaining an international outlook. We will accelerate the progress of internationalization of the University, solicit talent and build up high quality academic teams with international experience and multi-disciplinary backgrounds to provide quality high quality education and deepen interdisciplinary and innovative scientific research. Moreover, we will broaden further our diverse range of collaboration in the fields of teaching and research among institutions locally and abroad, create an academic and multicultural atmosphere in the campus, promote knowledge transfer and strengthen social service.

Please visit our website to find out more about Jalalabad State University, and we welcome all guests to visit our campus in person.

Message from Rector Advisor for Foreign Students

Welcome to Jalal-Abad State University

Medical Faculty

It is a pleasure to welcome the interested candidates, partners, peers and all who has the concern and desire to excel academically.

Our university is for those who understand that education is the way to the self-development and ladder to achieve the goals of their life to become a doctor and work for the medical community.

I encourage you to browse our interactive page, website, get we contact with us in Facebook, twitter, Instagram, and mail etc. to help you all get to know us.

Your Dream Will Come True With Jalal-Abad State University

MEDIUM OF INSTRUCTION

Due to its competitive education and liberal costs of study JaSU Faculty of Medicine is becoming increasingly popular among international students. It offers a full professional education programme, so that upon the completion of studies, graduates can successfully continue their education in the selected specialty's residency programme or medicine field's Masters programme in the world. Students have the opportunity to study under the guidance of knowledgeable professors from universities from Kyrgyz Republic and abroad, as well as to acquire up-to-date knowledge and skills, which are competitive in Eurasia and the world.

JASU Faculty of Medicine has created a medicine study development plan for the next five years, which has it becoming the leading center for medical education in the Central Asian Region. A world's best practice university medical study process, examination quality standards and modern teaching technology will be introduced.

Message from Dean

Medical Faculty, Jalal-Abad State University

Welcome to Jalalabad State University. It is a pleasure to welcome our students, partners, peers, and all who has the concern and desire to excel academically. Our university is for those who understand that technology is here to stay and to make life easier every day.

Economic and business;

Engineering technology;

Information-communicative technology.

HOSPITAL PRACTISE

Students must be aware that their behaviour outside the clinical environment, including in their personal lives, may have an impact on their fitness to practise. Their behaviour at all times must justify the trust the public places in the medical profession."

Professionalism and why it's required

Medical education involves more than the acquisition of technical knowledge and skills, vital though these are. Effective doctors also internalise a set of values that underpin their medical practice.

This is sometimes described as the process of developing appropriate medical virtues. A virtue can be understood as a morally-oriented disposition or set of dispositions. The moral emphasis here is less on what a doctor or medical student does, but what kind of character traits they express.

Virtues often seen as central to medical practice include the following:

trustworthiness, benevolence, intellectual honesty, courage, compassion, truthfulness.

It is clear from this list how important these are to the trust that patients have in doctors. Because they are character traits rather than individual actions, if you behave in your private or personal life in ways that seriously compromise you, trust in the

profession can be undermined and questions about your suitability for a medical career can be raised.

HOSPITAL PRACTICE AT JALAL-ABAD STATE UNIVERSITY

At JASU you will learn each and everything about hospital professionalism as well as good health caring. In first and second year You will learn medical theories. From third year you will practice at hospital as nursing assistant Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of ill, disabled and dying people. Advocacy, promotion of a safe environment, research, participation in shaping health policy and in patient and health systems management, and education are also key nursing roles. Nursing assistants, sometimes called nursing aides, provide basic care and help patients with activities of daily living. Orderlies transport patients and clean treatment areas. Nursing assistants provide basic care and help with activities of daily living. They typically do the following: Clean and bathe patients, Help patients use the toilet and dress, Turn, reposition, and transfer patients between beds and wheelchairs, Listen to and record patients' health concerns and report that information to nurses. Measure patients' vital signs, such as blood pressure and temperature, Serve meals and help patients eat. Sterilization, Introduction with medical equipment. From fourth year till fifth year you will be doctors assistant Doctor assistant are medical professionals who diagnose illness, develop and manage treatment plans, prescribe medications, and often serve as a patient's principal healthcare provider.

practice in every state and in every medical setting and specialty, improving healthcare access and quality.

Administrative Duties (may include, but not limited to):

Using computer applications, Answering telephones, Welcoming patients, Updating and filing patient medical records, Coding and filling out insurance forms, Scheduling appointments, Arranging for hospital admissions and laboratory services, Handling correspondence, billing, and bookkeeping

Clinical Duties (may include, but not limited to):

Taking medical histories, Explaining treatment procedures to patients, Preparing patients for examination, Assisting the physician during exams, Collecting and preparing laboratory specimens, Performing basic laboratory tests, Instructing patients about medication and special diets, Preparing and administering medications as directed by a physician Transmitting prescription refills as directed, Drawing blood, Taking electrocardiograms, Removing sutures and changing dressings.

Teaching hospitals are well-equipped with modern diagnostic and treatment facilities to train students at higher scientific and professional level. Our university is affiliated to the following hospitals where they can go and practice in their free time with the supervision of any medical professional.

Jalal-Abad City Hospital Jalal-Abad perinatal Hospital, Jalal-Abad territorial Poly-clinic, Jalal-Abad City Maternity Hospital, Osh provincial Clinical Hospital, Osh City territorial Hospital, City Hospital of Infectious diseases, Osh Inter Provincial center of Oncology.

Hospital duty for Students

At the end of every year, every students has to undergo hospital practical compulsory. Students are divided into several groups and are sent to different departments of the hospital. To deal with the local patients students are especially given extra language course of Kyrgyz and Russian language.

Apart from it if any students is interested in hospital practice in their leisure time, they are allowed to practice under the supervision of well-experienced medical doctor.

IMMIGRATION AND VISA INFORMATION

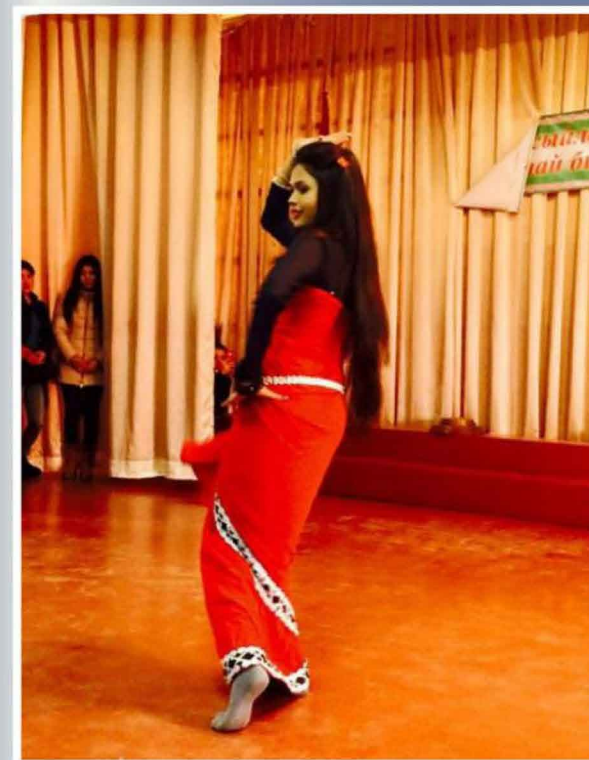

It is essential for all the international students to obtain a student visa to enter Kyrgyz Republic. Any student who wants to study in our university is provided an Invitation letter which he/she has to submit to the Kyrgyz Embassy while applying visa along with valid passport.

In the beginning visa for a month is provided by the Embassy of Kyrgyz Republic, India. A student must arrive in the Kyrgyz Republic minimum before 10 days of expiry of the visa. After entering the Kyrgyz Republic, he/she has to submit the passport to the respective university office for the registration. Every year a student has to extend visa. To extend visa a student should submit his/her passport to the university's respective office before 30 days of deadline of visa. Student not applying for the visa in time should pay fine with the report of nearby police station with an explanation of reason for not being able to apply for the visa in time. Violation of any rules of Kyrgyz Republic while living inside the boundaries can lead to cancellation of the visa and finally deportation from the country.

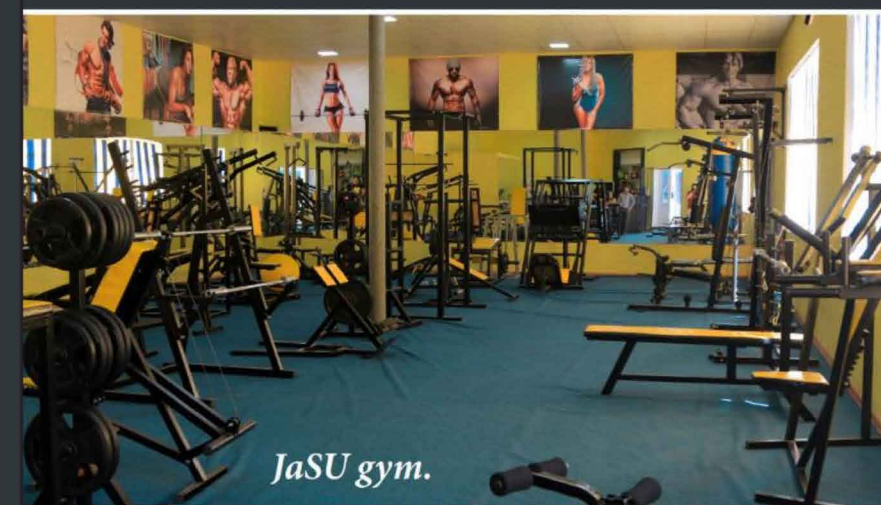

CULTURAL CENTER JASU: EVENTS, SOCIALISING AND SUPPORT

We provide students with academic and social events throughout the year. We provide year-round welfare and support, allowing our students to have an enhanced residential living experience in their home away from home.

We celebrate all the major festivals in the universities and organize different cultural programs. Our students participate in the programs organized by us and different local organizations.

Sports club

Every year JASU football tournament, Jalal-Abad Cricket Primer League (JPL), Women's Jalal-Abad Cricket Primer League (WJPL), Volleyball tournament are organized by the administration.

JALAL-ABAD STATE UNIVERSITY SPORTS CLUB

Encourages JASU students and teachers to demonstrate their skills and abilities not only in their academic endeavors, but in sports as well. There are various sport opportunities at JASU, e.g.: Cricket, Basketball, Volleyball, Football, and Table Tennis Etc.

FMGE COACHING CLASSES AT

JALAL-ABAD STATE UNIVERSITY

Kyrgyzstan has the cheapest medical Education System in the world. From the past many years, lots of Indian students are pursuing MBBS studies in Kyrgyzstan. kyrgyzstan educational system divides MBBS course for 5 years, including the Internship in its last year. Each year consists of 2 semesters. English medium Universities, either government-owned or private, provides excellent education in Kyrgyzstan.

Indian students can pursue MBBS from any MCI and WHO Listed medical Universities in any foreign country. All the Medical students pursuing their education abroad should appear for the MCI screening test to practice as a Registered Medical Practitioner in India.

The biggest challenge for the foreign medical students is to clear the licensing exam conducted by the National Board of Examinations (NBE) in India, also known as Foreign Medical Graduates Examination (FMGE). There is no bar on the number of attempts for taking up this exam. MCI exam is conducted twice every year, June and December. Clearing MCI screening test is the key to get the license to practice as a doctor in India. Minimum eligibility criteria to crack the MCI Screening test for any candidate is 50% marks.

There are many foreign medical universities in the world. But the main question is, Why ? Why Kyrgyzstan Why Jalal-abad state university, Indian students opt Kyrgyzstan over other countries for medical studies? Kyrgyzstan is one amongst the Cheapest countries in the world. There are many of government medical universities in Kyrgyzstan offering education to thousands of students with Low cost, high quality standards and well experienced staffs, excellent infrastructure, well equipped hospitals with updated technology etc.

At jalal-abad state university we conducting free MCI coaching by indian medical professional Teacher. Well experienced and highly qualified doctors from India have been taking the class in jalal-abad state university.

It is definitely not an easy task to pass MCI exam and so, we have MCI coaching as a part of curriculum and train the students for the best results at the very early stage, which makes them capable enough to appear for the exam before they Graduate from the University.
